The Power of Prophecy and why you should care

But, why is prophecy valuable anyway?

Listen, there is a reason the cabal values prophecy above all else (and believe me, they do)...

- Prophecy is valuable because it provides a window into a possible future.
- Prophecy is powerful because when we have an idea of how the book will end, we can choose how we interact with it.
- Prophecy is an advisory to be aware of the road we are on. In this case, Michael has given incredible insight into why this global ordeal was necessary to save Earth.

The Michael Prophecies are revealed teachings from a source claiming to be Archangel Michael. It was life-changing when it was happening. Now I am stunned to realize that all the strange, encrypted language Michael used for months was all dialed into this present time.

Based on the precision of their content and the accuracy of the prophecies, I believe these messages were specifically designed to be shared with you, right now.

The beings are really just using me, because they want to talk to you..

If you haven't yet heard about the news, I am now including the Michael Prophecies in The Disclosure course experience. Since you've already registered, you get this work included FREE. You don't need to do anything.

You'll receive the Michael Prophecies audiobook so you can hear the words in their intended form, and **attune your frequency to the source.**

You'll receive the eBook with the written text, so you can study and interpret the meanings of the passages for yourself and check my interpretations.

Update on the Insider Revelation Series: **Tomorrow is our last and final live stream before I head back to Arizona---much like a finale for this phase of the series. I am bringing everything together— it's called THE CULMINATION: 4D Activation and Becoming a Spiritual Warrior.**

Who is this Michael "Archangel" (claimed), any relation to Mike Pompeo (ex-CIA Director/Secretary of State aka the violent organization that controls all our presidents), and why were we getting psychically attacked at NLS Training yesterday?
